

HMATAX

Capital Allowances

Tax refunds and relief for pub and restaurant owners

Our service helps pub & restaurant owners identify unclaimed capital allowances and receive tax refunds. Our reports are guaranteed to be fully HMRC compliant to get you the maximum tax refund.

Pub & restaurant building owners are often unaware that their property is holding thousands of pounds of unclaimed tax relief in the form of Embedded Capital Allowances. These are allowances on items such as commercial kitchens, bars, lighting, toilets, security systems and fire alarms - essentially everything that would remain in your property if you tipped it upside down.

As long as you own a commercial property and pay UK tax then you are entitled to claim. We specialise in Capital Allowances Tax Relief and our expert in-house team work exclusively in this niche area of taxation. On average it takes only 6 weeks from our initial meeting to you receiving your relief from HMRC.

So far we have uncovered

£84m

in Tax Relief for our clients

On average we identify

£173k

of Allowances

Typically we would expect to find around 32% of the original purchase value of the property in previously unidentified Capital Allowances. £160K of allowances in a £500K property which translates as £64K in tax refund and/or reduction in future tax liability to a higher rate tax payer. So it's an exercise well worth doing.

Won't my accountant have already done this?

Probably not. It's a highly specialised area of tax statute and requires very specific knowledge of this area as well as a specialist team that includes a chartered surveyor and a chartered tax specialist.
